EDUCATION

University of California, Los Angeles (UCLA)

Los Angeles, CA

Bachelor of Science, Physics

Expected June 2030

- Staff, LA Math Tournament; Member, Sigma Pi Sigma Honor Society (SPS), IEEE, Quantum Computing Student Association (QCSA), ASME, 3D4E, and Bruin Chamber Musicians student chapters (2026 – Present)

St. Stephen's Episcopal School

Austin, TX

High School Diploma; Cum Laude Society

Aug. 2022 – May 2026

- President & Founder, Programming Club (2022 – Present): built the curriculum and hosted weekly meetings.

ENGINEERING PROJECTS

Double Inverted Pendulum Balance | *Control Systems, St. Stephen's Episcopal School*

2025–2026

- Built a stabilization rig for a double inverted pendulum, an underactuated system mandating continuous feedback.

Precision Timing Research | *Open Compute Project, Independent*

2024–2025

- Grant recipient for timing-service research under Stephen Wolfram (Open Compute Project).

PID Line-Following Robot | *Arduino, C++, Independent*

2025

- Derived and tuned a PID controller from first principles for closed-loop line tracking as an independent project.

Obsidian | *Programming Language for Machine Learning, Independent*

2025

- Designed and implemented a programming language targeting C++-level performance for ML workloads.

Assistive Mechanical Pen | *Mechanical Design, St. Stephen's Episcopal School*

2025

- Built a mechanical writing aid paired with a user interface to help teach blind students to write.

PUBLICATIONS

Can You Hear Naples? Building and Benchmarking a Neapolitan Speech Corpus. Accepted to COLM (LowResNLP); arXiv. Built and benchmarked a speech corpus for an under-resourced Romance dialect.

Bridging the Gap: Leveraging Cherokee to Improve Language Identification for Endangered Iroquoian Languages. arXiv. Showed that commercial systems fail basic language-ID tasks for endangered Native languages.

EXPERIENCE

Creator, *elseif*

Nov. 2020 – Present

YouTube

Austin, TX

- Write and produce technical explainers on systems behavior and programming language design; channel has 10,000+ subscribers and 4M+ views and was featured on ThePrimeTime.

Founding Engineer & Chief Technology Officer

Feb. 2025 – Nov. 2025

TrueAuto

Palo Alto, CA

- Architected and deployed the full-stack platform, streamlining technical operations and user experience.
- Generated \$75,000 in client financial gains through optimized systems and data-driven valuation models.

ACTIVITIES & HONORS

State Champion, Texas Math League

2026

Athletics & Arts | *Extracurriculars*

- USA Climbing top-30 national competitor (speed).
- Concert pianist, school concerto competition runner-up and performing member of tour through Italy.
- National Merit Semifinalist | Presidential Volunteer Service Award, Bronze (2025).

SKILLS

Computer Languages: C++, Python, Rust, Nim, JavaScript, R, SQL, MATLAB

Systems & Control: Embedded C++, Arduino, PID / MPC / reinforcement-learning control, precision timing

Tools & Platforms: MATLAB Certified, Supabase, Vercel, Git, JupyterLab, RStudio

Spoken Languages: English (native), Spanish (native/bilingual), Mandarin (conversational)
